

Tips and Tricks to avoid losing your deposit:

- Listen carefully to the advice given by the staff when hiring the car.
- Use your map - we give this to you for a reason!
- Avoid dirt, gravel, and sand!
- With our convertible cars, make proper use of the roof/cover when leaving the vehicle for extended periods of time.
- After a swim, dry yourself properly before getting back into the car. Salt water can damage/stain the fabric on the seats.
- We encourage the use of sunscreen here in North QLD but avoid getting this on the interior of the car. This causes damage over time.
- Brush off your feet/towel when coming back from the beach.
- Avoid parking underneath trees. This protects the cars from falling nuts and the wildlife up in the trees.

Here at Isle Hire we take pride in the condition/appearance of our vehicles. By following the above steps, you can help us maintain this standard for our future customers. Thank you for choosing Isle Hire and we hope you have a great time here on Magnetic Island!
